WORK EXPERIENCE

inMotion VR — Remotely from Lyon, France

Senior Game Developer — Apr. 2024 — Present

- Lead the Corpus VR development team (3 other developers, 1 intern, 1 QA).
- Responsible for systems architecture, technical documentation (code standards, best practices), code reviews and code quality.

Mid Game Developer — May 2021 — Apr. 2024

- Developed a puzzle game from start to finish, relying heavily on unit tests.
- Participate in all aspects of development of several VR mini-games: conceptual design, planning, implementation, testing, bug fixing, delivery and project management.

Fantazm — 's Hertogenbosch, The Netherlands

Mid Game Developer — Jan. 2020 — Apr. 2021

- Designed and developed (both front- and backend) Parker - the Game, a WebGL multiplayer turn-based strategy game where you manage your own company.
- Worked on the development of Corpus VR. Focused on gameplay programming and performance improvements.

Junior Game Developer — Oct. 2018 — Jan. 2020

- Developed, alongside Voedingscentrum, a VR experience (Steam VR) that teaches children healthy eating habits.
- Developed 2 mini VR games from conception to delivery.

SkyVu Entertainment — Omaha, USA

Game Developer — Jul. 2015 — Jun. 2016

- Worked on a Scrum team on Overclock, an online FPS mobile game.
- Gameplay programming using Photon Networking, backend programming (JS with PlayFab) and performance improvements focused on iOS.
- Integrated third-party plugins: PlayFab, OneSignal, and GameAnalytics.
- Prototyped a VR experience (GearVR) using Unity.

Lumen Games — Aracaju, Brazil

Game Developer — Feb. 2015 — Jun. 2015

- Worked on a team to develop Operação Abaporu, an investigation game focused on the Brazilian market.
- Created Unity Editor tools to handle the game database using Scriptable Objects.
- Developed game UI (layers, stacks and transitions) based on UnityUI.
- Reduced application size and memory usage in order to make the game available on older devices.

SkyVu Entertainment — Remotely from Aracaju, Brazil

Game Developer — Aug. 2014 — Dec. 2014

- Worked on a Scrum team developing the multiplayer infinite runner Let it Goat.
- In addition to gameplay programming, developed a multiplayer mode with a leaderboard system and procedurally generated levels.
